COMPANY OVERVIEW

Solomon Systems is a leading provider of supply chain security solutions integrating Internet of Things (IoT) and blockchain technology. Our solutions enhance transparency, traceability, and cybersecurity in global logistics operations. With a focus on AI-driven automation and compliance, we work with NASA, insurance providers, and global logistics firms to mitigate risks and optimize operational efficiency.

KEY CLIENTS & PARTNERS

NASA
Chubb Insurance
KPMG
Department of Defense (DoD)
Fortune 500 Logistics Providers
Federal Logistics Administrations

CORE COMPETENCIES

- IoT-Enabled Tracking & Monitoring – Real-time GPS tracking, geofencing, and sensor-based condition monitoring.
- Blockchain-Based Supply Chain Security – Immutable transaction logs, fraud prevention, and automated smart contracts.
- Cybersecurity & Compliance Solutions – End-to-end encryption, DoD-grade security, and AI-driven risk analytics.
- Data Integration & AI Analytics – Predictive maintenance, anomaly detection, and machine learning-driven supply chain optimization.
- Insurance-Integrated Risk Management – Unique industry-first insurance-backed security offerings for supply chain assurance.

DIFFERENTIATORS

Only supply chain security provider integrating insurance-backed risk management.
Partnerships with KPMG, global insurers, and U.S. government agencies.
Custom-built, USA-manufactured microelectronics for secure IoT tracking.
Industry expertise from global supply chain leaders, cybersecurity specialists & insurance executives.
Proven track record supporting defense, aerospace, and high-value logistics.

PAST PERFORMANCE

- Successfully secured a $20M contract with Chubb Insurance for supply chain risk mitigation.
- Partnered with NASA on secure supply chain logistics data assurance initiatives.
- Developed and deployed high-security IoT tracking systems for Fortune 500 logistics firms.
- Provided blockchain-based audit trails for defense and aerospace contractors.

CERTIFICATIONS & COMPLIANCE

- ISO 27001 Certified – Information Security Management
- NIST & DoD Cybersecurity Framework Compliant
- ITAR & CMMC Compliance for Government Contracts
- GDPR & HIPAA-Compliant Data Handling
